Accessibility Audit

example.test | WCAG 2.1 AA

Report generated: 2026-11-09T17:17:41.989293+00:00

This skill generates automated WCAG 2.1 AA accessibility reports. Automated tools detect 30%–90% of issues on the pages that were scanned. Results are informational only, not legal advice or a compliance certification. Manual testing by a qualified professional is required for complete coverage.

Executive summary

Automated accessibility audit
example.test: 10 of 10 selected pages have completed automated results.
Traffic window: November 1–November 2, 2026 (synthetic). Known pageviews across those pages: 86,500.
WCAG 2.1 Level AA is the standard most commonly applied in accessibility law and procurement, so every result below is measured against it.
17 violation instances pooled into 3 unique fixes.
critical: 0; serious: 3; moderate: 0; minor: 0; needs_review: 0.
3 distinct violated rules / 17 affected elements (unique page/target pairs). Severity totals above count pooled fixes.
10 known incomplete check records across completed pages; these are not confirmed violations.
Top finding: Image icons need text alternatives. Observed on 7 page(s); 59,200 known pageviews in that page set. Pageviews are exposure context, not affected people.

Pooled unique fixes by severity

Critical	Serious	Moderate	Minor
0	3	0	0

Page coverage

Page	Status	Pageviews	Instances
/womens/bracelets.html	COMPLETED	10,000	2
/	COMPLETED	9,700	1
/search	COMPLETED	9,400	0
/womens/rings.html	COMPLETED	9,100	3
/mens/bracelets.html	COMPLETED	8,800	2
/womens/necklaces.html	COMPLETED	8,500	2
/women.html	COMPLETED	8,200	1
/womens/earrings.html	COMPLETED	7,900	2
/mens/necklaces-and-chains.html	COMPLETED	7,600	2
/mens/rings.html	COMPLETED	7,300	2

Per-page scanner counts

Page	Violated rules	Affected elements	Incomplete checks
/womens/bracelets.html	1	2	1
/	1	1	1
/search	0	0	1
/womens/rings.html	2	3	1
/mens/bracelets.html	1	2	1
/womens/necklaces.html	1	2	1
/women.html	1	1	1
/womens/earrings.html	1	2	1
/mens/necklaces-and-chains.html	1	2	1
/mens/rings.html	1	2	1

Fictional data for layout testing. No live storefront was scanned.

Key findings

Priority uses observed severity, known page traffic and verified shared-component breadth. Traffic is not a count of affected people.

#	Finding	Severity	Pages / pageviews
1	Image icons need text alternatives	serious	7 / 59200
2	Links need names	serious	2 / 17900
3	Distinguish links from surrounding text	serious	1 / 9100

Finding details

1. Image icons need text alternatives

ID: a11y-ed8f0a859670932f | Severity: serious | Pages: 7 | Known pageviews: 59,200

Rule / criterion reference

Image has no text alternative.

Selector / target

```
[".product:nth-child(1) svg"]
```

Example HTML (escaped evidence)

```
<svg role="img"></svg>
```

What needs to change

Not yet described. Use Get fix with your code connected for the exact change.

Verification

Rerun the relevant check and manually verify the affected control and assistive-technology behavior.

Scanned / reviewed pages affected

/womens/bracelets.html; /womens/rings.html; /mens/bracelets.html; /womens/necklaces.html; /womens/earrings.html; /mens/necklaces-and-chains.html; /mens/rings.html

2. Links need names

ID: a11y-4035ae03bcae3c21 | Severity: serious | Pages: 2 | Known pageviews: 17,900

Rule / criterion reference

Focusable link has no accessible name.

Selector / target

```
[".hero-link"]
```

Example HTML (escaped evidence)

```
<a href="/gifts"></a>
```

What needs to change

Not yet described. Use Get fix with your code connected for the exact change.

Verification

Rerun the relevant check and manually verify the affected control and assistive-technology behavior.

Scanned / reviewed pages affected

/; /women.html

3. Distinguish links from surrounding text

ID: a11y-d9b6a902f7a477d1 | Severity: serious | Pages: 1 | Known pageviews: 9,100

Rule / criterion reference

Link relies on color alone.

Selector / target

[".intro a"]

Example HTML (escaped evidence)

Shop rings

What needs to change

Not yet described. Use Get fix with your code connected for the exact change.

Verification

Rerun the relevant check and manually verify the affected control and assistive-technology behavior.

Scanned / reviewed pages affected

/womens/rings.html

Manual-review checks and limitations

Incomplete checks are not confirmed violations. Unscanned pages are not clean; frame, hidden-state, keyboard and assistive-technology coverage require explicit verification.
