example.test Accessibility Audit

example.test | WCAG 2.1 AA | 10 of 10 pages with completed results

Report date: November 9, 2026

Original evidence: 2026-11-01T12:01:00Z

Engine: axe-core 4.14.0 | Viewport: 1280 × 800

This skill generates automated WCAG 2.1 AA accessibility reports. Automated tools detect 30%–90% of issues on the pages that were scanned. Results are informational only, not legal advice or a compliance certification. Manual testing by a qualified professional is required for complete coverage.

Executive summary

10 of 10 selected pages have completed automated results. Their known traffic totals 86,500 pageviews.

17 violation instances are grouped into 3 fixes. The evidence contains 3 distinct violated rules across 17 affected page/target elements.

WCAG 2.1 Level AA is the standard most commonly applied in accessibility law and procurement, so every result below is measured against it.

Traffic window: November 1–November 2, 2026 (synthetic). Pageviews are exposure context, not affected people.

Coverage: completed: 10.

Automated severity counts — pooled fixes

0	3	0	0
Critical	Serious	Moderate	Minor

Pages scanned

Page	Status	Pageviews	Instances[1]	Rules	Elements	Incomplete
Women's Bracelets	Completed	10,000	2	1	2	1
Homepage	Completed	9,700	1	1	1	1
Search	Completed	9,400	0	0	0	1
Women's Rings	Completed	9,100	3	2	3	1
Men's Bracelets	Completed	8,800	2	1	2	1
Women's Necklaces	Completed	8,500	2	1	2	1
Women's Landing	Completed	8,200	1	1	1	1
Women's Earrings	Completed	7,900	2	1	2	1
Men's Necklaces And Chains	Completed	7,600	2	1	2	1
Men's Rings	Completed	7,300	2	1	2	1

[1] Instances count rule/node occurrences; elements count unique page/target pairs. Incomplete checks are not confirmed violations.

Needs manual review: 10 incomplete rule records. Full records, original scan options and node evidence are retained in the accompanying JSON.

Key findings

Ordered by priority: severity weighted by known page traffic and verified shared-component breadth.

#	Finding	WCAG criterion	Severity
1	An SVG image has no text alternative	1.1.1	SERIOUS
2	A link has no accessible name	2.4.4, 4.1.2	SERIOUS
3	An inline link relies on color alone	1.4.1	SERIOUS

1. An SVG image has no text alternative

Severity: SERIOUS | Pages: 7 | Known pageviews: 59,200 | Instances: 14

WCAG / rule reference: 1.1.1

Image has no text alternative.

Selector

```
[".product:nth-child(1) svg"]
```

Example HTML

```
<svg role="img"></svg>
```

What needs to change

Verify source and ownership to determine the exact change for this flagged element.

Verification

Reproduce the finding in the recorded state, verify the user experience manually, then rerun the relevant check.

Pages affected: Women's Bracelets, Women's Rings, Men's Bracelets, Women's Necklaces, Women's Earrings, Men's Necklaces And Chains, Men's Rings

Finding ID: a11y-ed8f0a859670932f

2. A link has no accessible name

Severity: SERIOUS | Pages: 2 | Known pageviews: 17,900 | Instances: 2

WCAG / rule reference: 2.4.4, 4.1.2

Focusable link has no accessible name.

Selector

```
[".hero-link"]
```

Example HTML

```
<a href="/gifts"></a>
```

What needs to change

Verify source and ownership to determine the exact change for this flagged element.

Verification

Reproduce the finding in the recorded state, verify the user experience manually, then rerun the relevant check.

Pages affected: Homepage, Women's Landing

Finding ID: a11y-4035ae03bcae3c21

3. An inline link relies on color alone

Severity: SERIOUS | Pages: 1 | Known pageviews: 9,100 | Instances: 1

WCAG / rule reference: 1.4.1

Link relies on color alone.

Selector

```
[".intro a"]
```

Example HTML

```
<a href="/rings">Shop rings</a>
```

What needs to change

Verify source and ownership to determine the exact change for this flagged element.

Verification

Reproduce the finding in the recorded state, verify the user experience manually, then rerun the relevant check.

Pages affected: Women's Rings

Finding ID: a11y-d9b6a902f7a477d1

Coverage and limitations

Only recorded rendered states are covered. Hidden states, unselected pages, cross-origin frames, shadow roots, keyboard behavior and assistive-technology use require explicit verification. Unreviewed pages are not clean.

Fictional data for layout testing. No live storefront was scanned.

The evidence JSON contains full scanner metadata, individual targets, states and raw checks. This PDF has not been verified as tagged or PDF/UA conformant.
